REMARKABLE MASONIC INCIDANT.

The first Masonic funeral that ever occurred in California, took place in the year 1849, and was performed over a brother found drowned in the bay of San Francisco. An account of the ceremonies states that on the body of the deceased was found a silver mark of a Mason, upon which were engraved the initials of his name. A little further investigation revealed to the beholder the most singular exhibition of Masonic emblems that was ever drawn by the ingenuity of man upon the human skin. There is nothing in the history or traditions of Freemasonry equal to it. Beautifully dotted on his left arm, in red and blue ink, which time could not efface, appeared all the emblems of the entire apprenticeship. There were the Holy Bible, square and compass, the twenty four inch guage and common gavel. There were also the Masonic pavement, representing the ground floor of King Solomon's Temple, the indented tassel which surrounds it, and the blazing star in the centre. On his right arm, and artistically executed in the same indelible liquid, were the emblems pertaining to the Fellow Craft's degree, viz: the square, the level and the plumb. There were also the five columns representing the five orders of architecture—the Tuscan, Doric, Ionic, Corinthian and Composite.

In removing his garments from his body, the trowel presented itself, with all the other tools of operative masonry. Over his heart was the pot of incense. On other parts of his body was the bee hive, the book of constitutions, guarded by the Tyler's sword pointing to a naked heart; the All-seeing-eye, the anchor and ark, the hour glass, the scythe, the forty seventh problem of Euclid, the sun, moon, stars, and comets; the three steps, which are emblematical of youth, manhood and age. Admirably executed was the weeping virgin, reclining on a broken column, upon which lay the book of constitutions. In her left hand she held the pot of incense, the Masonic emblem of a pure heart, and in her uplifted hand a sprig of Acacia, the emblem of the immortality of the soul.

Immediately beneath her stood winged Time, with his scythe by his side, which cuts the brittle thread of life, and the hour glass at his feet, which is ever reminding us that our lives are withering away. The withered and attenuated fingers of the Destroyer were placed amid the long and flowing ringlets of the disconsolate mourner. Thus were the striking emblems of mortality blended in one pictorial representation. It was a spectacle such as Mason never saw before, and, in all probability, such as the fraternity will never witness again. The brother's name was never known.—*Philadelphia Age.*

LEGAL ENFORCEMENT OF SOCIAL EQUALITY.

The following act, enforcing social equality upon the people of the District, passed the Board of Aldermen about 2 o'clock on Tuesday morning last, having previously passed the Board of Common Council, and consequently has become a law. It seems that the party in power in this city, not content with squandering the money of the taxpayers during their reign, now aim to ruin, or at least break up every first-class place of amusement in the city. There is no manager of any respectable place of amusement in this or any other city who could obey that law and make his institution profitable; and, if enforced, it will surely result in closing every first-class place of amusement. The people of this District have, from time to time, been subjected to all sorts of experiments, much against the popular will, and this attempt to force social equality upon us in places of amusement will only fill the house with colored people, to the exclusion of the whites; and while the Radical party are in favor of the negro enjoying every political right, we very much question whether a majority of them would be pleased to have a negro seated beside them and their ladies at an opera. The people of this District have been a more patient under the indignities that have been heaped upon them than would have been any community in any Northern city; but there is a point beyond which forbearance ceases to be a virtue, and we think that point has been reached in this bill:

Be it resolved by the Board of Aldermen and Board of Common Council of the city of Washington, That from and after the passage of this act it shall not be lawful for any person or persons, who shall have obtained a license from this Corporation for the purpose of giving a lecture, concert, an exhibition, having a circus performance, keeping a theatre, or any other place of public amusement, to make any distinction on account of race or color in regard to admission to any position where the audience is admitted: *Provided*, The person or persons wishing admission pays the regular price, according to the seats desired, and conducts himself, herself, or themselves in an orderly and respectful manner; and any person or persons offending herein shall forfeit and pay to this Corporation for each offence a fine of not less than ten dollars nor more than twenty dollars, to be prosecuted and collected as other fines and penalties.

Sec. 2. *And be it further enacted*, That all acts or parts of acts inconsistent with this act be, and the same are hereby, repealed.

Some one of the many friends with whom Mr. Grant has been classed since he ceased to be a resident of Galena, wishing him to appear as an epigrammatic philosopher, has contrived for him and counted him with the remark that "Office-seeking is fast becoming one of the industries of the country."

When Deacon Hezekiah Bedott, his mind being "uncommonly solemnized," told his wife that "We are all poor critters," he, in a plain and concise manner, gave expression to a truth equally plain with that above attributed to Mr. Grant.

Office seeking is an "American industry." As such, it demands and receives "protection." The civil service now has about four times as many men in it as it had four years ago, and its salaries in all branches have been greatly increased. In proportion as this branch of "American industry" has been "protected," the power of the ruling party has been strengthened. Think of the "protection" to this industry which has been given by the reconstruction infamy to the carpet baggers in the South. The industry, and the "protection" given to it, presents irresistible temptations to weak democrats and demagogues to become apostates.—*Chicago Times.*

Assets $10,462,531,75.

SURPLUS OVER LIABILITIES 2,075,000,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

SPARKLING CATAWBA SPRINGS,

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

Being situated in the northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c.

The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.

FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. Carter, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD:

For one single month,	$35 00
For two or more months, $30 per month, or at that rate.	
For week,	10 00
For day,	2 50

Children under ten years of age and colored servants, half price. No charge for infants or children under two years of age.

AGRICULTURE IN FRANKLIN.

We were invited, and accepted the invitation, to address the Franklin Agricultural Society, on Saturday last. In the discharge of that promise and duty, we met with many of the tillers of the soil of that county.

We congratulated the people upon the reconstruction of their Society, which had been suspended or destroyed by the war and the process of Reconstruction. We reminded them of the fact that in all the Reports made to the Agricultural Bureau of the United States (see it in the Patent Office Reports, there were only two from North Carolina.

Two gentlemen, alone, of this State had deemed the agriculture of the State of sufficient importance to make public their experience, observations and reflections, through the medium of the Patent Office Reports, while every other State in the Union had furnished, by the hundred, its contributions to these invaluable reports.

We advised them to change and adapt their agricultural policy to the changed condition of the labor of the country.—We reminded them of the man whose wagon was mired in the mud, when he prayed to Hercules for help; Hercules came, but refused to help unless the man would first put his own shoulder to the wheel. So we said it was with the farmers of Franklin, their wagons were stuck fast in the mud, and there was no chance to get out except by putting their own shoulders to the wheels.

We gave them the results of our observations in different portions of the State.—How farmers throughout the State were using more of pains, brains and manure, than ever before. We flattered them by saying they were better farmers than in Orange, but not half so good as in Edgecombe and Warren.

When we talked about deep plowing, for all land, and under all circumstances, one man only shook his head, we felt him now if land were broken up four times as deep as we said it would be all the better.

We found the people of Franklin in better spirits and more hopeful than in many portions of the State. They were as crazy on cotton as the people of Edgecombe.—They talked of the Dickson cotton (which some had planted) and its yielding 633 bolls to the stalk. There's nothing like aiming high; the boy who shot his arrows at the moon did not hit the mark he aimed at, but he ranged higher than the boy who shot at the stump. We found Northern men buying land in Franklin.

Mr. James Heffernan bought the old Edwards farm at five dollars per acre, a fair price, for the land is poor and, like the Constitution, much abused. Mr. Heffernan says the only thing he wants is to be assured that the land is adapted to clover.

If the Dickson cotton gentlemen shall succeed even in producing 633 good bolls to the stalk they will find themselves greatly behind the clover growing Jerseyman, Mr. Heffernan. All cotton and no clover will make the farm and the farmer poor.

We saw cotton growing in the garden and in the lots, almost to the Court House and Church doors. This looks like taking cotton to extremes, but it was not equal to the Duplin farmer who told us he could not afford to plant corn, but would plant cotton and bot one grain of corn.

Speaking with and to practical men, we dealt only in the practical, we gave them our experience in farming under the new system of labor with a freedman, named Green. Green we know to be an industrious man as a slave, he could run a mill, shoe a horse, or build a house. He had eight or ten children, three of them grown. Green and his boys bargained to work every day on the plantation.

We furnished three horses and the necessary farming implements. We bought him seventy sheep, twenty-five bushels of seed wheat, a stock of hogs, oats, corn, &c. The profits of the farm were to be equally divided between us. Green was to have the privilege of cutting and hauling wood to town when he could not plough; this he did, receiving as much as three dollars a load for some of it. We were not to share in the profits of the wood hauling. Green was to have it all, and when he paid for half of the sheep they were to be common property between us.

In March we went to see Green on the plantation, having heard that he was lifting up his horses every morning before they went to work. The first thing we asked after was the sheep, how many lambs. Green? "Only one, and only six of the sheep left." How many hogs? "Well, sir, I have had bad luck with them; the old cows are dead, the shoats have strayed, and there is only four pigs left." Your horses, how are they? "Well, sir, old Tom he's dead, and old Charles he's dead, and old Pete he's laid off." Where's your boys? "Well, sir, I had to hire them out in the tobacco factory." In the fall we received eleven barrels of corn as our share of the crop and we were only out about $600.

Such was our experience in farming under the march of the new civilization with the improved system of labor.

We were surprised to hear that both the Doctors and lawyers were at work in Franklin. We speak of work outside of their professions. We saw a Doctor at one time on his horse, then again with coat off, hoe in hand. We will not call their names lest we should injure their characters and standing with their professional brethren.

Of course we told the farmers of Franklin there could be no good farming except under the Constitution and laws. The Governor and the governed must all obey the laws, otherwise we could have neither good government nor good farming.

PEN AND INK SKETCHES OF THE UNIVERSITY OF NORTH CAROLINA, AS IT HAS BEEN.

DEDICATED TO THE PEOPLE OF THE STATE, AND TO THE ALUMNI OF THE UNIVERSITY.

NO. 12.

STEWARD'S HALL.

On the lawn stretching east immediately in front of Smith Hall, once stood the Steward's Hall, an institution more honored in its discontinuance than in its observance. A Steward's Hall forcibly degenerates into an arena for College rowdyism. It gave way in Chapel Hill to the force of public division, and was entirely superseded by private boarding tables, and more especially for many years, by the table kept at the Eagle Hotel, when Miss Nancy Hilliard was the hostess. Miss Nancy is now living at Chapel Hill, but I hope she will pardon this public notice of her. She was for many years one of *the institutions* of Chapel Hill, and as such deserves honorable mention—having the largest number of permanent boarders, and keeping the best table of any woman in the State. Her income was many thousands a year, and, as freely as she received so freely and generously she dispensed to all around her. She was a little too indulgent to "her boys," her kind heart too often interfering with her interests, in their behalf, so that she was often, and is to this day, largely a loser by them. Of the hundreds who have sat at her table, I know of some who return other than feelings of respect and gratitude to Miss Nancy. When any of her special pets got into trouble, she would put on her bonnet, and walk over to Governor Swain, and "beg" for them. Her occupation for the present is gone. If all who have left College in debt to her would come forward now and pay up, she would have a handsome independence. Those who believe that Chapel Hill is to see better days, hope yet to see Miss Nancy again providing cheerily and bountifully for 150 boys, and with means again to assist the poor and needy around her.

THE VILLAGE.

Gov. Swain always declared that Chapel Hill was co-existent with the University, and they must sink or swim together. He was always as much interested in the growth and prosperity of the one as of the other.

When he went there, Chapel Hill had no church, but the College Chapel; it had but one store; one practicing physician whose saddle-bags held all the physic of the neighborhood; no schools; no churches; no pastor and no lawyer. He lived to see eight or ten dwelling stores; two drug-stores; four handsome churches besides the Chapel, each supporting its own pastor; half a dozen schools; all the learned professions amply and ably represented; and a population of some 1,000 inhabitants, in districts and thriving. In the half dozen years immediately preceding the war, handsome residences had sprung up all over the town, new streets were opened, and a very general impulse given to its business.

THE VILLAGERS.

Chapel Hill has always been peculiarly fortunate in a sober, orderly and industrious population. Its villagers and men of business have been with very few exceptions, since I have known the place, men of great respectability and worth; active and consistent men of the various churches; and most of them I believe members also of the ancient and venerable society of Masons. Very few of the village boys brought up there have ever gone astray or proved to be other than respectable members of society. I take great pleasure in saying these things of a place and people so deserving of all that can be said in their praise, and dear to me for many years.

NO RAILROADS.

The "Fathers" of Chapel Hill have never wished it to become too "common or unclean." They opposed the running of the N. C. R. R. any nearer than University Station or Durham, and would have thought it a great mistake to locate a Court House at the seat of the University. It is indeed a wide departure from the "old ways" that seeks to make this calm scholastic retreat a place of business for a county, a resort for idlers and roughs. If such ideas were resisted when the students were counted by hundreds and the importance of the place to the public could be urged as a reason for running a railroad to it, what are we to think of the policy that makes Chapel Hill a terminus to a road, only 8 or 10 miles long, when the University lies prostrate and the village with it? Is the road to build up the University and open the eyes of the public to the merits of its present Faculty? If indeed the road were to run past, at the foot of the Hill and terminate at Pittsboro', then the largest wheat growing country in the State would feel the benefit, and Chapel Hill with a station at a mile's distance, might still maintain the dignified seclusion befitting the "dreams of Pindus, and the Aonian maids."

THE COLLEGE SERVANTS.

While commemorating the surroundings of the University as they were, it is only fair to pay a deserved tribute to those who were for many years the "College servants." Hundreds must remember Dave Barham with respect. For forty years he was head servant there, being hired by his owner —— Barham, Esq., of Wake county, from year to year, to the Faculty. The Faculty placed unlimited confidence in him. After Dr. Mitchell's death, he said that in the forty years he had served under the Doctor he had never received a sharp word from him. A fact honorable to both. Dave was quiet, observant and sententious, and possessed many of the best traits of a gentleman. He died in June, 1860. Tom Jones died seven years before him. "Dr." November Caldwell is still living, now, as he has always been, a respectable citizen in his sphere,—and looking on with a somewhat curious eye at the changes around him. Then there were the fashionable barbers, Dave Moore and C. J. Burnett—both honest and respectable men. Dave died suddenly in March, 1865," leaving some property and a considerable sum of money in specie, which he, in apprehension of a visit from General Sherman's army, secreted so well that it has never yet been found. He died in an apoplectic fit and made no sign. Some treasure seeker may yet light upon poor Dave's hoard. C. J. Burnett invested his savings in Oberlin, Ohio, before the war, and soon after its close moved thither with his family.

CHAPEL HILL IN ITS PRIME.

The ten years immediately preceding the war may be said to have been Chapel Hill's best days. Gov. Swain was allowed to see his dearest hopes fulfilled in the wide spread and increasing reputation of the College and in the growth and prosperity of the town. Those were the days when he might be seen traversing the streets at early dawn "to make the town up," frequently knocking at a neighbor's door and saving him from the ill effects of too-prolonged morning slumbers. Gov. Swain was eminently a neighborly man; always genial, kindly, often playful. Even when bowed by family cares and anxieties, the full extent of which his nearest neighbors never knew,—even in the depths of that paternal anguish known only to God, his heart was always open to sympathy with others. Sad and oppressed he might be, but never unapproachable. On the anniversaries of his birth-day he would make the rounds, and claim the good wishes of every neighbor.—He visited every family and desired to be on good terms with all.

I was at Chapel Hill in 1859. There was not then a place prettier, or more interesting and unique anywhere in the South.—There were sixteen members of the Faculty and four hundred and thirty students. Dr. Mitchell had gone to his rest and reward two years before, but Dr. Phillips, Dr. Hubbard, Prof. Fetter, Judge Battle, Prof. Chas. Phillips, Prof. Hepburn, Prof. Martin, Prof. Kimberly and Prof. Smith were all at work, and hard at work. In one year from that time the first low mutterings of the war were heard advancing nearer.

A SHORT TREATISE ON KEROSENE OIL.

An oil lamp is undoubtedly a very simple contrivance for giving light. Yet, as simple as it is, how few persons, even of those nightly accustomed to using them, use them understandingly. In the first place, explosions have occurred, and will occur in the use of kerosene oil so long as it continues to be in use, and to guard against such explosions, often attended with fearful loss of life, is the object of this article. *Kerosene is not dangerous* if treated rightly. There has never been an explosion of Kerosene oil that could not be traced to a cause. All good kerosene oil, oil sold by responsible dealers, is subjected to a government fire test of 110 degrees, Farenheit, and each barrel is now branded its test." I have time and again tried the Kerosene oil purchased from different dealers in this place and always found it fully up to the government standard. A simple way of trying it is by heating water in a cup, and submerging a thermometer until the degree of heat in the water indicates 110 or 112 degrees on the thermometer, then pour a spoonful or two of kerosene oil in the water, stirring it a little that the oil by mixing with the water may be of the same temperature; upon the oil arising to the surface, apply a lighted paper or match. If good oil, it will not take fire. So you see it would be impossible for good oil to explode from use, the well regulated lamp, as the oil in the lamp can never, under any circumstances, reach as high a degree of heat as 110 deg.

Every one knows that it is the capillary attraction which causes the oil to supply the flame, although the flame is several inches above the oil level. The nearer the oil is to the wick, the better will be the light. As capillary attraction acts only at a short distance, the surface of the oil should always be within a little distance of the flame, and to this end all kerosene lamps should be trimmed and filled often and over night. And, again, shreds of oil, Kerosene probably less than most, used in lamps, contains a glutinous matter. This fills the pores of the wick, or more properly the capillary tubes, and prevents a free ascent of the oil to feed the flame. For this reason it seems to me wick should be occasionally renewed. The wick should sit loosely, so to speak, not too tight, nor yet too loose; better too loose than too tight. The wick is larger after being used,—the oil causing it to swell,—should therefore be full loose at first.

So far as my information extends, and I have taken the trouble, in many instances, to ascertain as far as possible, at what time and in what way the explosions occurred, explosions of Kerosene lamps in most instances have occurred when the lamp is but partly filled, and always when exposed to a sudden current of air. In nineteen instances of explosions of Kerosene lamps, eighteen have been ascertained to have occured at the exact moment when a door or window was opened, or the lamp was taken up in the hand, or in moving it, thus causing a current of air to rush into the lamp, and in sixteen of the above nineteen cases the lamps had not been filled since being used on a previous occasion; in fact, but partly filled.

The only deduction from this is that Kerosene oil in itself is not explosive—but when at a certain heat and suddenly exposed to a current of air, it sometimes explodes, and from the fact that these explosions occur when the lamp is nearly empty, or only partly filled, we certainly must conclude that the air current, coming suddenly in contact with the heated air in the chamber, above the oil forms a gas that is explosive.

If your lamp is full or nearly filled with oil, where is the space for gas? And how can the lamp explode?

Locomotives don't explode when their boilers are filled with water. N.

RALEIGH June 1, 1869.

AN INTEMPERATE AND INCOMPETENT OFFICIAL REINSTATED BY THE PRESIDENT.

An appointment was made in the Patent Office to-day that calls for some ventilation. Commissioner Foote, during his administration of the office, dismissed an assistant examiner for intemperance and incompetency. The dismissed party, it seems, was a personal friend of President Grant and a classmate of his at West Point. Relying upon his testimony with the President, this individual has repeatedly boasted that he would get back to his old position in the Patent Office in spite of Commissioner Foote or Commissioner Fisher either. To-day he made good his boast. Armed with a letter from the President he presented himself to Commissioner Fisher, who opened the paper and found it to contain a request for the reinstatement of the dismissed individual. The Commissioner is said to be a highly just official and of course received the request with considerable surprise, but nevertheless found himself constrained to make the appointment, as the President made the request. The appointment gives dissatisfaction to other examiners, and assistant examiners and clerks, over some of whom this friend of President Grant is elevated.—*Wash. Cor. New York Herald.*

During the late meeting at Berlin of the Society for Giving Aid to Sick and Wounded in Time of War, the Prussian army had a grand manœuvre. In this they imitated exactly an actual field of battle. Men were supposed to be killed and wounded, and were borne off the field. The ambulances were all equipped as for war, and the army surgeons were on duty and watching over the carriage of the wounded men, as if the field of battle were a real one. To test the medical arrangements, the number of men supposed to be wounded was made greater than would actually be the case, and wounds of all kinds were supposed to be inflicted. Every wounded man was attended to on the field.

"*Explanatory Drawing.*"—The Drawing by the Real and Personal Estate Agency, anxiously looked for by persons who had taken stock, came off on Saturday, according to published programme. The weather was weeping, but the expectant people were not deterred by that, and went in numbers to Tucker Hall to watch the operation. A good deal of excitement was caused when the owners of lucky tickets claimed their prizes as their number was drawn.

J. M. Blair, Esq., of the Yarborough House, drew the $650 piano; Mr. Wesley Whitaker drew a $50 china set, and Mrs. Pepper, wife of the caterer, drew a $12 hearth rug. Very many of the tickets were sold out of town, and we have not the names of the holders. Every one was satisfied with the arrangements of the drawing, and this augurs well for the grand drawing of which this is explanatory."—*Standard.*

The Age of Progress.

We publish to-day the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to dispose of real and Personal Estate in any mode or form

THE SENTINEL.

LOCAL DEPARTMENT.

TUESDAY, JUNE 8, 1869

NEW ADVERTISEMENTS.—Andrews, the Fashionable Clothier, advertises Boys' Clothing of Stylish Cut.

Dissolution—Williams and Lambeth—Book and Stationery business continued by Alfred Williams. Let everybody go and see his splendid chrome pictures, from the celebrated gallery of E. & H. T. Anthony, of New York, who import them from Europe.

Louisburg Male Academy, Fall Session.

Flour, Sugar, Bacon, Hams, Scuppernong wine and Bumgardner Whiskey, G. T. Stronach.

Fifty-fifth term St. Mary's School, Raleigh, begins July 15 h. Rev. Aldert Smedes, D. D. Rector.

And don't forget the auction of miscellaneous merchandise to-night.

MARKET HOUSE SWINDLE.—In a few days we hope to have all the facts appertaining to the $7,000 swindle perpetrated upon the tax-payers of this city by the present loyal Board of Commissioners.

We intend, also, to ventilate and expose thoroughly the fraud and peculation which pervades the whole of our municipal government at present.

Subscribers to the New Cemetery Association and all who desire to become members are requested to meet at the Store of W. H. Jones & Co., on Friday the 11th inst., at 5 o'clock P. M.

THE following prominent and distinguished gentlemen arrived here yesterday, at the Yarborough House, to attend the various Courts now in session in this city: Hon. W. T. Dortch, Hon. Geo. Howard, Hon. Asa Biggs, G. W. Blount, Esq., A. M. Waddell, Esq., Col. J. T. Morehead, Jr., A. Empie, Esq., Judge Pearson, Judge Shipp, Robt. Strange, Esq., Hon. R. R. Bridgers, Col. J. W. Sharp, Hon. R. S. Gaither, Col. T. L. Hargrove and H. W. Guion, Esq.

CORRECTION.—We correct some typographical errors, which were overlooked yesterday, in the advertisements of Messrs. W. H. & R. S. Tucker. Since the reduction in the prices of their goods, they seem to be so busy selling that they hardly have time to write a legible advertisement, and if the printer commits errors in setting it up, it is nothing more than what might be expected. It is their own fault, and all owing to their *selling their goods so cheap.*

We are requested to state that the Board of Supervisors of the N. C. P. & R. E. Agency will meet at the store of Messrs. Hester Bros. & Co., to-morrow, at 10, a. m. to count the tickets, prizes and numbers in the wheels for Friday's drawing, at Tucker Hall. Any person desiring to be present and witness the operation, can call at that hour. The tickets for this drawing are going off very fast, and those desiring a chance had better call early.

We hear, *sub rosa*, that a Radical Architect of this City, swears, that if the "powers that be," don't let him have a hand in the Penitentiary contract, that he will tell of the largest Radical swindle on record.

MASONIC.—We are requested to state that there will be a meeting of William G. Hill Lodge, at their Lodge room, at the usual hour this evening for the purpose of work. The brethren are expected to attend punctually.

POLICE ITEMS.—"This is the most impartial country for justice, that I ever saw," said Sam Weller. "There is not a magistrate in it who does not commit himself twice as often as he does anybody else." The remark of Mr. Weller, in regard to the English magistrates, seem to be applicable to our city police, in corroboration of which, see the following from the police docket:

— Scales, Captain of the night police, up for being drunk yesterday at Kate Doughty's, whom he whipped for not admitting his amorous advances, was bound over in a bond of $200 for his appearance at the next term of Wake Superior Court, to answer a charge of assault and battery.

B. B. Crossan, negro policeman, put in the guard-house for being drunk and disorderly. Liberated, but on what condition we did not learn.

MURDER.—At the Falls of Neuse in this county on Friday last, two drivers of the paper mill wagons, named Norfleet Lassiter and Nathan Allman became involved in a quarrel in regard to a disputed account. After high words had passed between the parties, Allman became so much enraged that he drew a pistol and shot Lassiter, inflicting a wound which resulted in Lassiter's death in about 10 hours.

On Sunday James T. Bethalan, being deputized as special Coroner, proceeded to the scene of the unfortunate occurrence, summoned a Jury and held an inquest upon the body of the deceased. The Jury rendered a verdict: That the deceased came to his death by a ball shot from a pistol in the hands of Nathan Allman.

Allman was brought to this City on Saturday, and safely lodged in Jail.

Before his death Lassiter made the following declaration of facts, which were taken down by the officer, A. L. Davis, Esq., presiding at the examination:

Nathan Allman said that he, (Lassiter) owed him some money.

Lassiter replied that he had paid him all but two dollars.

Allman said it was more than that.

Lassiter insisted that it was not.

Allman then said that Lassiter was trying to undermine him in order to get him away from the place and that he would shoot him.

Lassiter told him to shoot, and denied the charge made against him by Allman.

Lassiter then, in order to reason the matter, commenced advancing towards Allman when he (Allman) drew a pistol and shot him.

SUPREME COURT.—The Supreme Court of N. C. met this morning pursuant to adjournment. On the opening of the session, the Chief Justice addressed the members of the Bar present, stating that the Court had seen a Protest, signed by certain members of the Bar, which Protest was a contempt of the Court, and that the Clerk would be ordered to serve upon each member of the Bar who, having signed said Protest, appeared in the Bar, a Rule to show cause why they should not be *silenced* until they purged themselves of the contempt of the Court. This produced a good deal of confusion among the members of the Bar, most of whose names were attached to the Protest, and they left the Court to confer as to the course proper for them to pursue.

The causes were then regularly called, but those lawyers whose names were on the Protest were not allowed to appear at the Bar of the Court to argue their several causes.

We have not time to-day to comment on the action of the Court, in silencing such a large and respectable portion of the members of the Bar, for speaking out their opinion, endorsed, we believe, by every reflecting and intelligent man in the State who is not steeped to the eyes in party prejudice and blind to the best interests of the people.—The scene in the Court to-day is calculated to impress upon the public mind more strongly, if that were possible, the truths set forth in the Protest.

We shall allude to this subject hereafter in such a way as to show the public to what a crisis we have arrived and upon what strange times we have fallen.

UNITED STATES CIRCUIT COURT.—This Court opened this morning at 10 o'clock, Judge G. W. Brooks, presiding. The following were drawn and sworn as the Grand Jury, to wit: B. R. Hinnant, Foreman, H. J. Brown, J. M. Harris, D. Blackwell, (colored) J. Richardson, J. D. Williams, W. P. Taylor, T. J. Mathews, R. Hatch, J. Orrell, J. Morgan, J. S. Cobb, R. H. Gregory, W. J. Green, Abram Hinton, (colored,) J. H. Rogers, E. S. Rowland, H. J. P. Hughes, L. A. Talton, J. Fleming and B. A. Hughes.

The Jury look to be an intelligent body of men and seem to be well qualified to discharge the duties devolving upon them. His Honor Judge Brooks then delivered an able and instructive charge to the Jury, defining minutely their duties.

Upon motion the following gentlemen were admitted as Attorneys, Counsellors and Proctors of this Court: Messrs. R. S. Gaither, A. M. Lewis, Jno. L. Bridgers and Jas. McIver, who qualified by taking the usual oath.

The Petit Jury were then called and empanelled.

The case of Mile Moffet came up first, he being charged with distilling illegally. The case being argued was submitted to the Jury who returned a verdict of guilty. Judgment not being prayed was suspended on payment of costs.

D. D. Underwood was next put upon trial charged with having sold spirituous liquors without license. Hon. Thos. C. Fuller appeared for the defendant. The case being submitted to the Jury, they, in a short time, returned a verdict of "Not Guilty."

Pending other business the Court adjourned until 3 o'clock this afternoon.

FUSS IN THE FAMILY.—We understand that a muss arose, a few days ago, between native scallawag, Parris, keeper of the Capitol, and carpet-bagger, Kimberly, Superintendent of public painting, which threatened to terminate in a rather serious manner, and would have done so but for the interference of some persons present. The cause of the difficulty, as reported to us, is about as follows, and if we give the facts incorrectly we will correct them on being convinced of the error:

Kimberly, it seems, had sometime ago become dissatisfied with the poor pay he was receiving as special detective in the service of the Executive, and demanded something better. It was agreed that he should have the superintendence of painting the iron fence around Capitol Square, and the building, inside and out, at a salary of five dollars a day, and the privilege of hiring hands at two dollars a day. Sixteen hands were hired at one dollar a day, allowing sixteen dollars a day perquisites in the hands of the Superintendent, making, with his five dollars regular salary, twenty one dollars a day. This, it seems, the Keeper of the Capitol thought too much to be going all one way, and contended for a share, which gave rise to the dispute that waxed warmer and warmer, until bright steel blades were exhibited, when friends interfered, as stated, and quiet was restored.

If these things are true, or approximating the truth, we may lay our hands on our pockets and sing,

"That's the way the money goes."

SOMETHING NEW UNDER THE SUN.—An enterprising gentleman, having a pleasant seat near the city, which he is fitting up in a most neat and pleasant style, is about adding a new and useful feature to the many improvements of his place in the shape of an elevator to be run by wind—an improvement on the old wind-mill—for the purpose of raising water to be distributed to the buildings on the place, and for irrigating his garden, shrubberies, &c. This wind mill operates a pump for raising the water, is self-adjusting, and so contrived to be perfectly manageable, and can be stopped or started in a moment. We shall speak more particularly of this novelty in our State, after we have given it an inspection, which we hope to do in a short time.

GONE.—One of the oldest printers in Raleigh, Mr. F. K Strother, left the city this morning for a new field of labor in the West. He goes to Clayton, Illinois, to commence, we understand, the publication of a newspaper at that place. He leaves many friends in North Carolina who will be glad to hear of his succeeding in his new enterprise.

STATE NEWS.

A man calling himself Dr. J. H. Berkley, turned up in this place a few days ago, and after victimizing Capt. Price, of the Simonton House, and a few others, took his departure, minus settling his hotel and bar bill, of some $20. He fleeced a citizen of a shirt, and another of a small sum of money. Capt. Price pursued and overtook him at Morganton, recovered $10 and took a due bill for the balance due, and was requested by the swindler not to expose him in Morganton, which request was not complied with. Berkley claims to have been a Confederate soldier, about which there is some doubt, has a wounded leg from some cause, makes a genteel appearance and converses well.—*Statesville American.*

The Charlotte *Democrat*, speaking of the failure of the banking house of H. B. Peters in that city, noticed by us a day or two ago, says:

"It may not be amiss (even if it is unnecessary) for us to remark that we know that the other two Banking Houses in this city are entirely safe and solvent. The First National Bank of Charlotte is considered so good that its stock on Saturday last commanded a premium of two per cent. And the Bank of Thos. W. Dewey & Co., is backed by men of large capital and is doing a good business. No business man about here is afraid of either institution."

DEATH OF FRANK JOHNSON.—"Old Frank Johnson," as he was familiarly known, the greatest fiddler of the present age and two past generations, is at last reported as dead. The rumors regarding the place of his death are conflicting, both Halifax and High Point being named.

Frank has played the fiddle for three generations to dance and his fame was far and wide. From Hatteras to the Blue Ridge, and even beyond, he was known by young and old, who were wont always to connect his presence with some festivities. He was greatly advanced in years, having himself declared to us some months since that he was in his 81st year.—*Wilmington Journal.*

MISCEGENATION.—It is with regret that we chronicle the second instance of miscegenation in our midst. A white man, calling himself J. B. Bogan, yesterday applied at the Register's office for a license to marry Maria Evans, a negro woman, whose color will favorably compare with that of "Africa's darkest maidens."

Bogan has not been a resident of this city long, and came here from South Carolina, where he had conducted himself in a manner contrary to the laws of God and man.

Such are the facts that have been told us by responsible parties, who are acquainted with Bogan's history.—*Journal of Com.*

ONE OF THEM.—Among the "melish" imported from Raleigh, yesterday, is one Benjamin, a well-known character in this city. This fact induces us to view the squad with favorable eyes, for if Benjamin is a fair specimen, the people of Jones county may expect no acts of oppression from it, other than the wholesale destruction of mean whiskey. With this exception Benjamin is perfectly harmless.—*Newbern Journal of Commerce.*

Holden's "melish" fought "bravely," during their short stay in our town on Saturday last. Fortunately, the fighting was altogether confined among the "bummers" themselves. We fear that the late horrors of Arkansas are about to be inaugurated in the Old North State.—*Goldsboro Messenger.*

REOPENED.—Martindale Post Office, Mecklenburg County, has been reopened, and Miss M. R. Martin appointed Post Mistress.

INCENDIARY PLOT AMONG GEORGIA BLACKS.

AUGUSTA, GA., June 5.

The Elberton (Ga.) *Gazette* says an insurrectionary plot has been disclosed by a negro, having for its object the burning of the town of Lexington, Oglethorpe county, and the massacre of its inhabitants. The sheriff and posse, in arresting some implicated negroes, were resisted by one, whom they shot and killed.

Singular, but true: Of the seven members of Lincoln's Cabinet at the commencement of his administration, there is only one who now sustains the Radical party, and that is Simon Cameron.—*N. Y. World.*

TELEGRAPHIC.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, June 7.—Commissioner Delano decides that the States have no right to throw convict produced articles on the market until the Federal tax is paid.

The President has submitted a series of questions to the Attorney General regarding the political position of Georgia.

The recent massacre in Kansas is attributed to the shooting of a squaw. Eleven citizens are known to have perished in retaliation.

The Radicals carried the municipal election. Their opponents made little contest, and the polls were abandoned to the negroes. A very serious riot occurred in the second ward. The negroes chased a conservative black man to his house and assailed the house. The inmates escaped to the rear. The conservative found refuge in the upper story. The police surrounded the house, brought the conservative down, enclosed him in a hollow square, took him to the polls, when he voted. The negroes now became furious, threw a volley of stones and fired occasional pistol shots. The chief of police was hurt in the arm and ordered the force to fire over the mob. This increased the mob's violence, when the police were compelled to fire a volley directly into them killing one and wounding three, when the mob fled.

Earlier in the day a policeman was cut with a razor and severely beaten in the Sixth Ward. A free fight, with several harmless pistol shots occurred in the Seventh Ward. In the Second Ward Julius Wallace, colored, was knocked from a buggy and beaten for having scratched his ticket. The police rescued Wallace, but were badly battered. Timothy Rogers was also badly beaten for voting the citizen's ticket. Rioting was confined entirely to the negroes. The police have behaved well. The negroes show no disposition to molest the whites so far, but they are drinking freely, which causes much apprehension for safety during the night.

[LATER.]

WASHINGTON, June 7.—The turbulence seems subsiding. The prompt action of the police seems to have subdued the more violent, while orders to the marines to hold themselves in readiness quieted the fears of the people. It is just to say that no respectable colored citizens of Washington participated in or encouraged the violence.

FROM NEW YORK.

NEW YORK, June 7.—It is reported that a clipper ship with eight hundred men, commanded by Wm. Hindney, of Cincinnati, sailed Saturday to join Crapedeau. The men left New York for an excursion to the fishing banks on schooners, and boarded the clipper below the light ship. A majority of them were Western men, who served under Sherman or Thomas.

SPAIN.

MADRID, June 7.—Much anxiety is felt about Cuba. The government is unwilling to publish telegrams from Cuba, which increases the popular uneasiness.

FRANCE.

PARIS, June 7.—At the French Derby, Gladiateur won the Prix de Paris. The Emperor, Empress, the Imperial Queen Isabella, of Spain, Queen Sophia, of Holland, and other notables were present.

Several arrests have been made, attributed to a new political conspiracy. The details are unknown.

MARKETS.

NEW YORK, June 7.—Cotton firm. Sales 1,900 bales at 30½. Flour less active and heavy; superfine firm at $5 50; common to fair extra Southern $6 40 to $6 90. Wheat 1c. better, with a light supply and fair export demand; winter red Western $1 40 to $3. Corn closed quiet.—Mess Pork closed at $31 6 @. Lard shade firmer —kettle 19 to 19¾. Whisky quiet at 98. Rice dull, Carolina 8½ to 9. Sugar steady. Porto Rico 12½. Muscovado 9½ to 11½; Havana 13½ to 13¾.—Coffee steady. Molasses unchanged. Naval stores quiet.

Money active, closing steady at 7. Sterling weaker, closing at 9½. Gold weak at 38½. Stocks unsettled, feverish. Government bonds dull and steady, 62's 22½. Southern quiet, Louisiana's 75 bid, 7's 66.

BALTIMORE, June 7.—Virginia's old inscribed 50½; sixty-sixes 56½; Coupons, old 58; new 51½ bid; N. C's, old 61 asked. Cotton quiet at 29; Flour dull and irregular, superfine quarter 75.—Corn from 88 to 89. Yellow 84 to 86. Pork bacon firm, shoulders 14½ to 14½; hams 20. Lard firm 19½. Whiskey dull $1,01.

AFTERNOON DISPATCHES.

FROM WASHINGTON.

WASHINGTON, June 8, M.—Published details fully corroborate the dispatch of last night, in regard to the municipal election, except that the Radical majority is 4,500, instead of 2,000. All is perfectly quiet, which may be attributed to the fact that the disorderly element became helplessly drunk. The election results: one negro Register of City, (an important office); one negro Alderman, (same as last year); seven negro Councilmen,—a gain of six. The Radicals swept every Ward. The Common Council is unanimously Radical and only two Conservatives in the Board of Aldermen.

FROM NEW YORK.

ALBANY, June 8, M.—The National Typographical Union tabled a resolution affiliating with negroes by a vote of 56@28. Lady delegates were admitted.

FROM INDIANAPOLIS.

INDIANAPOLIS, June 8, M.—Attorney General Williams delivered an opinion that appropriations and other measures not including the ratification of the 15th amendment, passed after the resignation of forty-two Democrats, ought to be obeyed as constitutional law.

FOREIGN.

LONDON, June 8, M.—The probable rejection of the dis-establishment Bill creates intense excitement.

The *Standard*, admitting the peril, urges the Lords to fight for all they hold dear, and risk the consequences.

The *Post* shows that the rejection of the Bill by the Lords will not defeat its ultimate passage.

The *Star* uses threatening language, saying that the House of the Lords will not be a more logical, desirable or excusable an institution than the Irish Church. Cries will soon be heard for the downfall of the absolute chamber.

The *News* says that the vote of the Lords will at the worst postpone for a few months only the downfall of the Irish Church.

The *Telegraph* says that the country has spoken unmistakably, and if forced to speak again, its accents will not be free from indignation.

The *Times* says, we are on the eve of a crisis comparable only to the Reform Bill, the result is not doubtful. The Lords propose to outrage the vast majority of the people by a contemptuous disregard of their wishes. Thinks the bill will ultimately succeed. Outside of the papers which circulate more among the people talk freely of revolution.

MARKETS.

NEW YORK, June 8, M.—Cotton firm at 31.—Turpentine 45 to 47½. Rosin dull at $4,30 for strained and common. Money steady at 7.—Sterling 9½. Gold 38½. 62's 14. North Carolina's 60; new 50½.

LIVERPOOL, June 8.—Cotton a shade firmer. Uplands 11½. Orleans 12. Sales 14,000.

LONDON, afternoon.—Consols 92½. Bonds 80½.

ROBERT SOUTTER, OF GRANVILLE COUNTY, realizing the importance of spreading the growth of Wheat in this County; and the farmers, knowing so well the absolute necessity of supplying themselves at an early period with "Seed Wheat" of the finest quality, ready to plant in the Fall, the undersigned takes this early method of inviting applications from farmers, for what they may require to plant next Fall, of the very "Select Seed Wheat" which he expects to deliver at moderate prices, from the crop growing now at his "Oakland Farm" near Turnerville, in this County.

This Wheat was planted last Fall, with Guano, of seed selected in Baltimore with great care by my predecessor, Mr. Chas. H. K. Taylor, who paid $3,25 for it there. It has had the advantage of a heavy top-dressing in Spring of Chicago bone Fertiliser, and is now very promising.

Like the good Sorghum Seed which I have offered to the farmers of Granville, I hope the orders for my "Seed Wheat" may be equally attractive, to absorb all that I can expect to spare of it.

Address me at Kittrell's Springs, or Mr. Thos. W. Taylor, at Oakland Farm.

READ WHAT THE HIGHEST INSURANCE AUTHORITIES SAY OF THE

BROOKLYN LIFE!

"A Company that makes such endorsements on its policies, gives the strongest pledge that it will fulfil its trust faithfully, and keep its reserves sufficient."—HON. ELIHU WASHBURN.

"The BROOKLYN LIFE has placed itself in the vanguard of insurance reform, and is the first Company that has done full and complete justice to the insured."—INDEPENDENT TIMES, Jan. 1869.

THE BROOKLYN LIFE, ALONE OF ALL OTHER LIFE INSURANCE COMPANIES, GUARANTEES A DEFINITE SURRENDER-VALUE IN CASH, AND EVERY POLICY ISSUED BY THAT COMPANY, BEARS A CERTIFICATE STATING WHAT THIS EXACT WORTH WILL BE IN DOLLARS AND CENTS, AT ANY TIME, AFTER THE PAYMENT OF TWO OR MORE PREMIUMS.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. SPEC. Jan. 1869.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

Dividends are paid IN CASH, or applied to the payment of premiums of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

CLEOPATRA DYING.

BY HERMINE.

Glorious victim of my magic!
Ruined by my potent spell,
From the world's imperial station,
Have I dragged thee down to Hell?
Fallen Christian! Contumelious Monarch!
Lost through me the one love for me!
Foot, on which the world did kneel,
Wings my soul to fly to thee!

Cæsar shall not grace his triumph
With proud Egypt's captive Queen!
Soothed to sleep by aspic kisses,
Soon my heart on thine shall lean:
Soon my life like'a rose blossoms,
Swift shall glide on Charon's stream:
Clasped once more in thy embrace,
Love shall prove an endless dream!

Iras! Charmian! Bind my tresses!
Place the crown above my brow!
Touch those hands and take those kisses—
Anthony reproved not now;
Gods! my lips breath the poisoned vapors!
They have struck my Charmian dead!
Foolish minion durst proceed me,
Where my spirit's Lord has led!

None shall meet his smile before me,
None within his arms repose;
Be his heart's impassioned fires,
Quenched upon my bosom's snows!
None shall share his burning kisses,
Ere I haste me to his side!
Octavia's tears may prove her widowed—
Cleopatra's still his bride!

See! Mycourage claims the trifle—
Closer press the aspic fangs,
Memories of his quickened touches
Sweeten now those deadly pangs!
Honor, manhood, glory's teaching,
All, he bartered for my smile,
Twined his heart-strings round my fingers
Vibrant to their touch the while.

Followed fast my silver rudder,
Fled from Cæsar's scornful eye,
Hoisted to his blanched heart,
Glad upon my breast to lie!
Then I snared him in my meshes,
Bound him with my wily art,
From the head of conquering legions,
Snatched him captive to my heart.

Wild his soul at my caresses!
Weak his soul at my command!
Rome, with fury, saw her mightiest
Bowed beneath a woman's hand!
Noblest of the noble Romans!
Genius of the Emperors thee,
Then didst fling away a kingdom—
Egypt gives herself to thee.

Sweet as balm. Most soft and gentle
Drains the asp my failing breath!
Anthony! My Lord! My Lover!
Stretch thine arms to me in death.
Guide me through these deepening shadows
Faint my heart and weak my knees:
Gracious victim? Puissant hero?
Cleopatra dies for love!

PROPOSALS WILL BE RECEIVED AT THIS office until the 10th of June next, for the Graduation, Masonry, Bridge Superstructure and Ballasting of one hundred miles of this Road, including (45) miles of the Branch Road down the French Broad river. This, the Western Division of the Road, extends from Asheville westward towards Chattanooga (135) one hundred and thirty-five miles, and a north west branch towards Cincinnati (45) forty-five miles. To contractors, this work presents attractive features consisting of tunnelling and other rock excavations, crossing several mountain ranges. Besides a large amount of bridge masonry. All of which is accessible to the contractor, being for the most part near the turnpike roads leading from Asheville, Maps, Plans, profiles and specifications will be ready after the 20th of May for inspection.

All necessary information in regard to the work may be obtained at this office upon application.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which insures no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so muddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he roots into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,

U. S. A.,

and finds just what he wants:

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of the UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guaranteed fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured, $10,005,500.00
Total Premiums, 226,127.00

The whole number issued by the Connecticut Mutual in the first year of its existence was 892
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phœnix Mutual, 135
" Massachusetts Mutual, 312
" Equitable of New York, 277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, 1,200 "
And in its 20th year, 2,842 "
this latter being 600 less than was issued by the NATIONAL in its first seven months.

THE Sentinel.

PUBLISHED AT THE

CAPITAL OF THE STATE,

Daily, Semi-Weekly and Weekly.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

FIRST CLASS NEWSPAPER.

Feb 11-tf J. A. JONES, Raleigh, N. C.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks, so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the Low rates of the articles places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the best blankets. Fur Flannels is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be reattained in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so great, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations,—we have the exclusive right to sell and manufacture in the state.
